PROJECTS

NGO Website

It was a Team Project for our NGO internship, Tools & technologies used: HTML, CSS, JavaScript, Bootstrap, ReactJS. Successfully designed the website to showcase.

Speech Emotion Recognition System using Python

It was a Team Project in which was made for a subject in college in my 2nd year in which various technologies were used like feature extraction, Machine Learning using Python. we could successfully extract the emotions.

Blockchain Based Audit System

It was our final year project where we created an audit system using smart contract and solidity and various frontend technologies like HTML , CSS , Javascript.

Login authentication system using Firebase

It was an individual project by me where I developed a login authentication system using HTML, CSS, Canva and integrated it with google Firebase cloud service.

EXPERIENCE

Heoweb Solutions • Nagpur, MH Jr. Software Developer Intern

Dec 2023 - Present

Heoweb Solutions is a IT Enterprise engaged in the Computer Programming Activities in Nagpur, Maharashtra. As an 6 month intern , I want to learn as much as possible and work on real word projects.

NGOF-MAA Foundation • Nagpur, MH Web Developer Intern

Jun 2022 - Jul 2023

As a Web Development Intern, I designed and developed a website for NGOFMA, highlighting their initiatives for social impact. Collaborated with a team to create a platform showcasing their cause.

Oasis Infobyte • Remote Web Developer Intern

Feb 2023 - Mar 2023

During a one-month intensive learning period, I gained hands-on experience working with HTML, CSS, and JavaScript to develop visually appealing and user-friendly web solutions.
